

“Traditional Chinese and Western Medicine – An Introduction to Integrated Practice”

Dr. XU, Xu Wei
MD of Integrated Medicine (China)
PhD of Traditional Chinese Medicine (China)

Wednesday September 17th, 2008

- ◆ **3:30 – 5:30 p.m. at Yee Hong Ho Lai Oi Wan Centre - Markham**
or
- ◆ **7:30 – 9:30 p.m. at Yee Hong Centre - Scarborough Finch**

Dr. Xu currently holds appointments as Specialist of TCM at the Global Health Care Clinic Center in Shanghai and Senior TCM Consultant at the TCM Clinic of Bao Chun Tong Bio-tech Ltd. Company, Cixi city, Zhe-jiang Province. He also conducts private clinic practice as an IM Practitioner offering primary IM care for expatriates living and working in Shanghai.

Previously, Dr. Xu was Senior Resident Doctor of Neurology, and Attending Doctor and Administrator of Clinic Center of Senior TCM Specialists, at the Shanghai Yue-yang IM Hospital of the Shanghai University of TCM; as well as Medical and Educational Director of the Cambodia Field Station Program for the University of Toronto – Centre for International Health.

Agenda of Lecture:

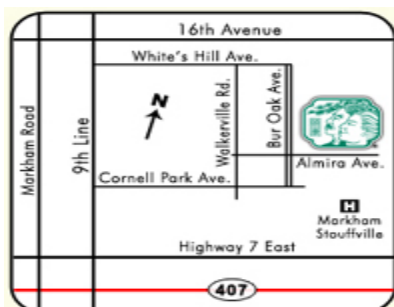

1. The Main Theories of Traditional Chinese Medicine (TCM)
2. The Main Clinical Practice of TCM – Especially the way of diagnosing patients
3. How TCM is combined with Western Medicine in China in treating elderly patients with hypertension, stroke...etc.
4. The main challenges for a practitioner of Integrated Medicine (IM) nowadays

Each Ninety Minutes Lecture will be followed by thirty Minutes of Dialogue with the Audience through Questions and Answers.
