

Yee Hong Ng Siu Chan Care Centre New Opening Date and Cultural Designation Announcement

Opening in Early 2027

As we prepare to welcome residents to the new Ng Siu Chan Care Centre, we are pleased to share that work continues to progress toward the completion and opening of this important new home.

As with any project of this scale and complexity, timelines continue to be carefully coordinated across construction completion, regulatory approvals, and operational readiness. As a result, we now anticipate welcoming our first residents in early 2027, slightly later than originally planned.

Our priority remains unchanged: to ensure the home is fully ready to provide a safe, welcoming, and exceptional experience for residents and their families from the very first day.

The additional time will allow us to complete final building and commissioning activities, prepare and orient our new team, and ensure all operational and regulatory requirements are in place before residents arrive.

We are most grateful to our community, donors, and partners whose generosity and support are helping to bring this new home to life. The Ng Siu Chan Care Centre represents an exciting new chapter for Yee Hong and will provide 224 seniors with culturally responsive, high-quality care in a modern, purpose-built environment.

Cultural Designation

Yee Hong is excited to announce that the new Ng Siu Chan Care Centre has received cultural designation from the Ministry of Long-Term Care and Ontario Health. This means that the new home has been recognized as being primarily engaged in serving the Chinese community.

Culturally responsive and appropriate care enhances the quality of care and quality of life for seniors, ensuring they receive care and services designed to their unique cultural needs, such as food, programs and activities, traditions, language, and more.

We look forward to sharing further updates as we approach opening and, most importantly, to welcoming our first residents to their new home.
